Inclusion & Diversity in Open Source Projects

opensourcediversity.org

@osdiversity #opensourcediversity

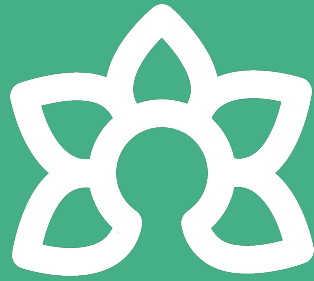

Open Source Diversity

For more diversity & inclusion in free & open source software communities ☺

Basics

First steps to help make your open source project more friendly and inclusive

No regular meetups,
only special events

<http://opencollective.com/opensourcediversity>

The logo for Turkish Tech Berlin is enclosed in a black rectangular border. It features the words "TURKISH", "TECH", and "BERLIN" stacked vertically in a light gray, sans-serif, uppercase font.

TURKISH
TECH
BERLIN

meetup.com/turkishtech

turkishtech.org

About

- Collaborative for technology professionals of turkish origin and internationals
- Collaboration and exchange of the underrepresented in tech to add value and diversity to Berlin's technology ecosystem

Mission

- Embrace and own underrepresented and marginalized communities
- Raise awareness for inclusion
- Help build foundation for a more diverse tech community

@WWCodeBerlin

berlin@womenwhocode.com

Our Events

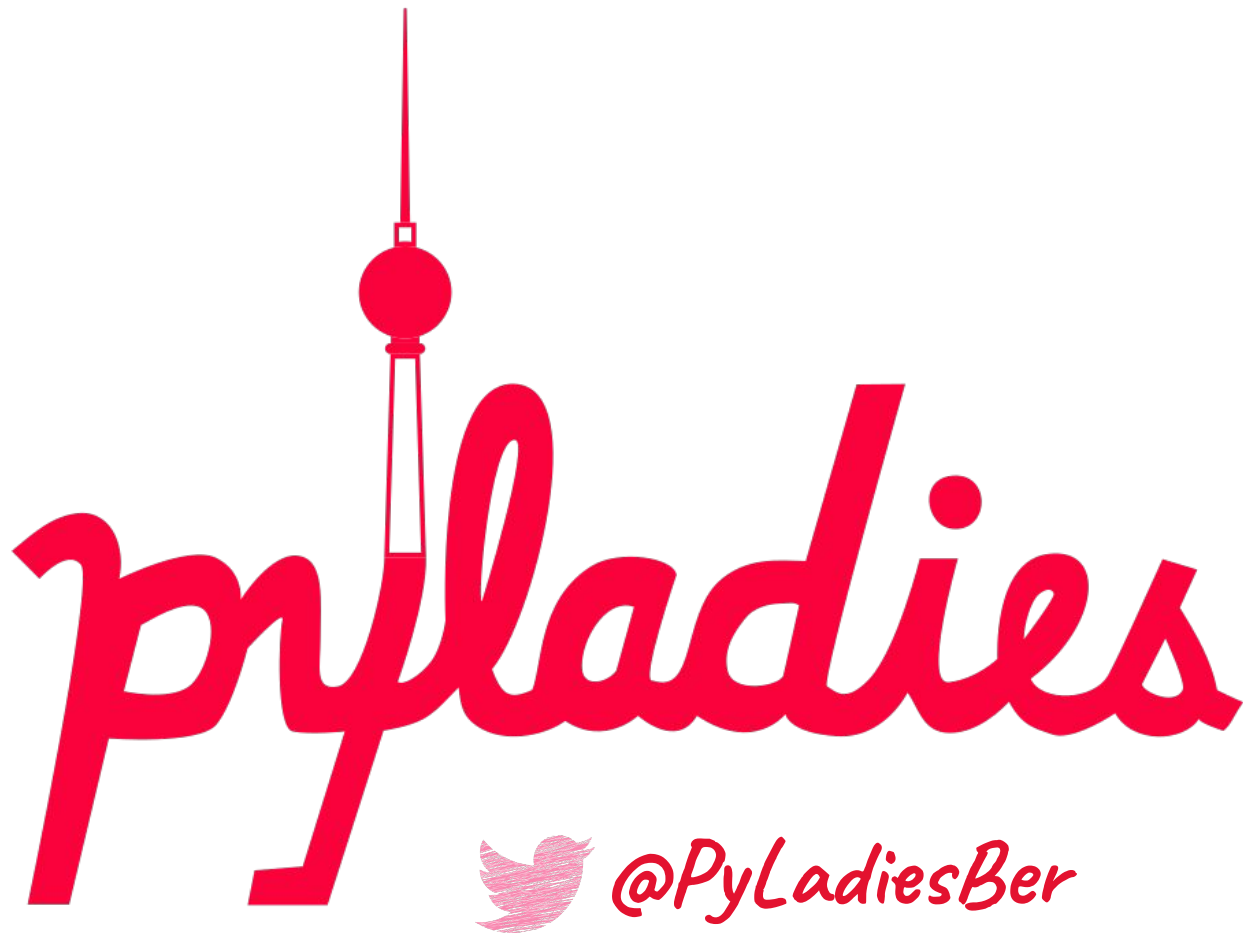

Talk Nights (monthly)

Workshops

Hack Evenings (biweekly)

next one is on Oct 29 @Hello Fresh

<https://www.meetup.com/de-DE/Women-Who-Code-Berlin-Germany/>

Upcoming Meetups

November 9th

Python Pizza Hamburg 🍕

November 10th

Coffee, Cake & Code Hamburg 🍰☕

November 19th

Devops Docker edition 🐳

December 10th

End of Year Special 🎉

<https://www.meetup.com/PyLadies-Berlin/>

Every
contribution
counts!

presented by  DigitalOcean and 

How it works:

1. Sign up for Hacktoberfest
2. Make 4 Pull Requests
3. Get a T-Shirt!

Rules

- Pull Requests have to be on GitHub
- On a public repo
- Between October 1st and 31th
- Pull requests can not be marked as Spam by maintainers - follow the Contribution Guidelines!

Search the web to plant trees...

Documentation

Event organization

Marketing

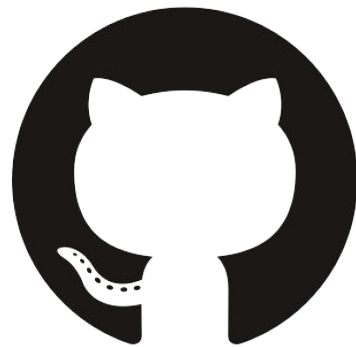

Testing

Translation

...

GitLab

GitHub

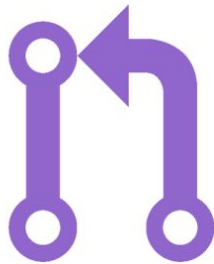

Development setup

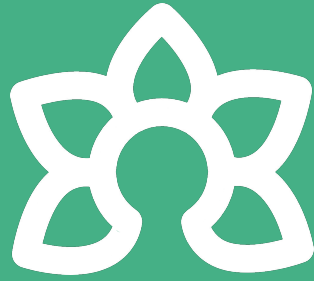

1.  Set up your local development environment
2.  Pick a good first issue
3.  Create a branch and make your changes.

Remember to sign off your commits using `git commit -sm "Your commit message"`

4.  Create a [pull request](#) and `@mention` the people from the issue to review
5.  Fix things that come up during review
6.  Wait for it to get merged!

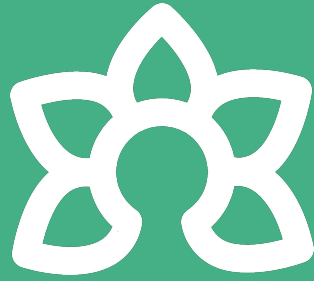

good first issue

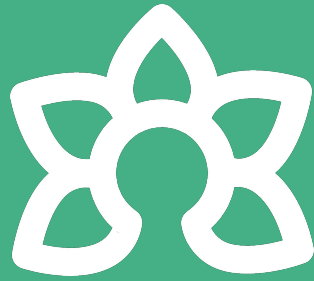

Bring your QUESTIONS

Post them on the Q&A wall
& follow @osdiversity on Twitter

Celebrate your CONTRIBUTIONS

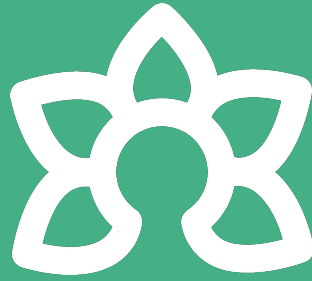

Come to the Stage & get your pick

Thank you
& have fun!
